# Tom Rossner

Full Stack Developer

## 👤 Profile

Passionate and driven individual seeking for my next position as a Web Developer. Proficient in React and Node.js, I have a proven ability to quickly learn new technologies. With a strong attention to detail and excellent problem-solving skills. My goal is to contribute my skills and expertise to a challenging development role.

## 💼 Employment History

### Front End Developer at Jane.co.il

March 2024 — May 2024

- Maintained, developed, and designed the user interface across multiple codebases using Next.js and Tailwind CSS.
- Achieved a balance between functional, aesthetic, and responsive designs, while ensuring code readability and reusability.
- Collaborated closely with cross-functional teams, including designers and backend developers, to implement feature-rich, user-centric solutions that aligned with the company's objectives and enhanced the overall product experience.
